

Material Handling *Solutions*

**Optimize Your Material Handling with
Kemper Radial Stackers**

Maximize Productivity, Minimize Downtime
Providing Solutions that Drive Results

Why Kemper Radial Stackers?

Efficient Material Handling

Kemper Standard Radial Stackers are designed for optimal material handling, offering belt widths from 24" to 42" and lengths ranging from 36' to 120'. With a capacity of up to 700 TPH, these versatile machines provide seamless integration into your workflow, enhancing efficiency and productivity.

Durable and Reliable

Built with components such as Luff Idlers and Douglas Pulleys, our stackers provide reliable performance even in the toughest conditions. With options like Walkway, Scrapers, and Radial Hoppers, you can customize each unit to meet your specific needs.

Tailored for Flexibility

Our stackers are container-ready for international shipping, ensuring global accessibility. Optional features like power travel, swivel axles, and walkways enhance operational flexibility. Looking for a custom size? Contact us today!

Dedicated to Quality

At Kemper, we believe that quality is paramount. Each of our Radial Stackers is built using reliable components, ensuring durability and dependable performance even in the toughest conditions. We focus on thorough testing and quality control to make sure our products perform at a high level. Our focus on quality not only enhances product longevity but also minimizes downtime and maintenance costs for our customers.

Industry Leaders

With decades of experience in the material handling industry, Kemper has established itself as a trusted provider of high-quality equipment and solutions. Our commitment to innovation and excellence drives us to deliver products that meet the evolving needs of our customers. We specialize in manufacturing custom solutions that enhance operational efficiency across various industries.

Comprehensive Support

Our commitment to our customers extends well beyond the initial sale. Kemper offers extensive after-sale service, including a robust parts department that ensures you have quick access to the components you need. Whether it's routine maintenance or unexpected repairs, our knowledgeable team is ready to assist you in keeping your equipment running smoothly. We strive to provide timely support and quality parts, helping you maintain optimal performance and minimize downtime.
